TOOK SOME TIME

The final rejection of a mining application, offered in 1907 by George Rohpeter, has just been received at the local land office. The reason for the rejection was neglect to comply with the law. It is understood that the land office has notified the claimant many times during the fourteen years, but the work has not been done, so the law of "laches" has been invoked. The claims in question are in mining application No. 529 in the Prescott and Phoenix series, No. 927722.

Despite the uncertainty of the situation, both senate and house leaders expressed confidence that there would be no extra session of congress. The report persisted that as many of the supply measures as could be passed before March 4 would be disposed of, and that joint resolutions continuing existing appropriations for other departments would be adopted wherever necessary.

THREE MEN ROB BANK ARE CAUGHT—CONFESS

The men, who were not masked, entered the bank, forced the cashier, W. Wilkinson, into a vault, and locked him up. Taking \$1800 they left the bank and walked out of the town.
Wilkinson, who recently placed tools in the vault to effect his escape in case of such an event, liberated himself and spread the alarm. All but a little over \$500 was recovered.

U. S. IN NO DANGER OF FOOD SHORTAGE

(ASSOCIATED PRESS DISPATCH)
WASHINGTON, Feb. 17.—Assurances that the United States is in no danger of a shortage of food, despite the enormous exports to Europe were given out tonight by the department of agriculture, in a statement to the public. Surplus wheat above domestic needs on hand February 1, the statement said, would permit the exportation of nearly a million bushels daily, about the recent average, until the new crop is available.
Moreover, there are larger supplies of corn and other grains, meat animals, dairy products, potatoes and fruit at the opening of 1915 than for many years. Incidentally it is pointed out the average price of meat animals was seven per cent lower in January than a year ago, butter two per cent; potatoes 35 per cent; apples 37 per cent; while the price of chickens is also slightly lower.

DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Grandma's Recipe of Sage Tea and Sulphur Darkens So Naturally That Nobody Can Tell
Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe for about 50 cents.
Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy.
